

TradeStats

View all trade activity for every tariff code entering and exiting South Africa easily and instantly. We have an online tariff book which makes searching easy, and you can view your trade data by volume, value and average unit price as well as see the applicable duty rates.

Trade data is a leading indicator of what will happen in your market. If imports surge today, they will be sold in the shops tomorrow. If you're a manufacturer, we'll help you identify dumping, and if you're an importer, we can alert you to a potential risk.

Data can be downloaded in MS Excel either at a high level or at the most granular level when that extra bit of deep dive is absolutely required. Use Power BI or another business intelligence tool for your data analysis? Let us know, and we'll open an API so you can connect to the data you require.

Why is TradeStats SA's Best Trade Data Solution?

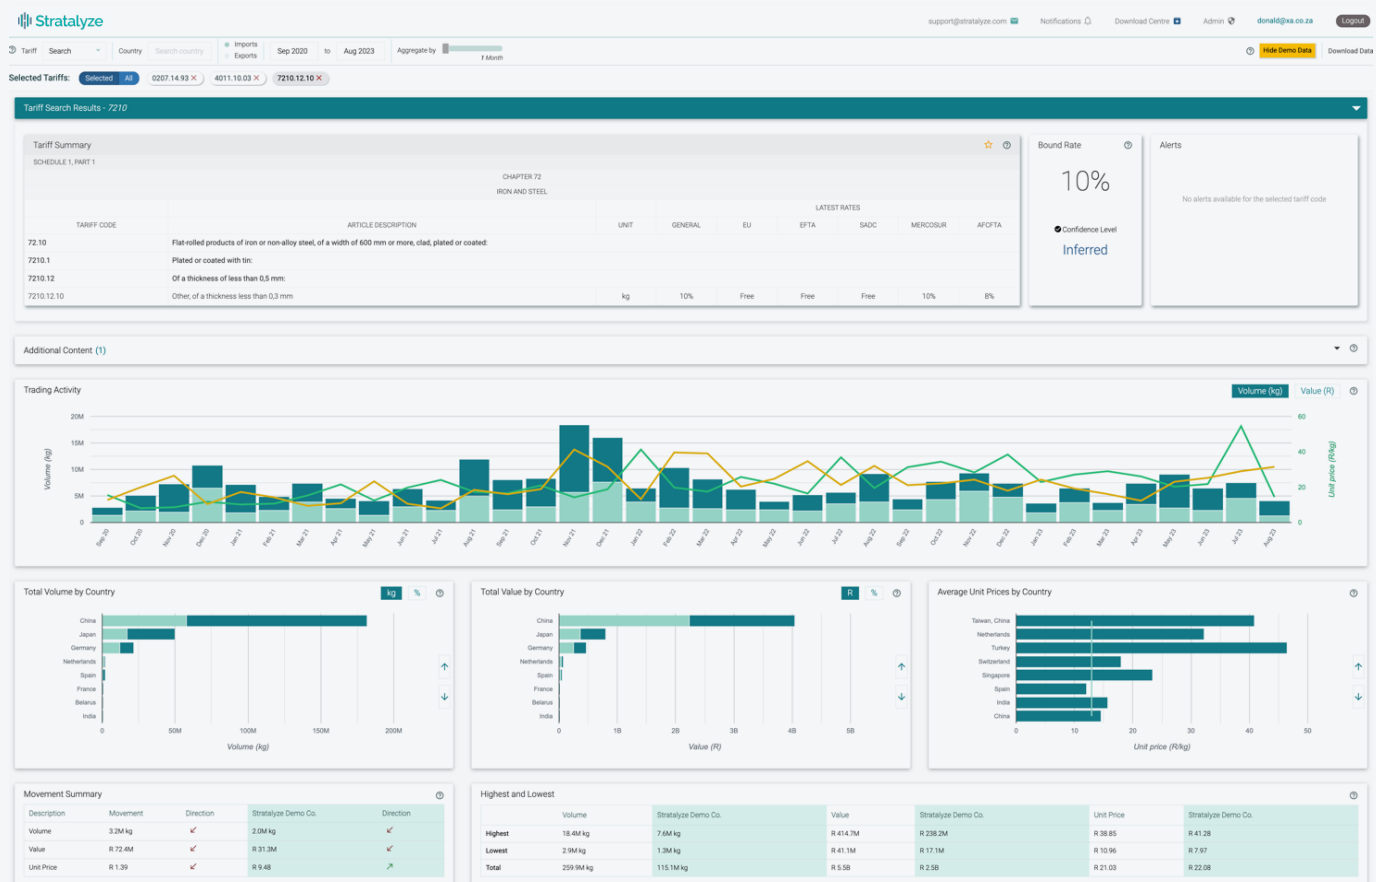

- All Trade Types
- Multi-currency
- All Countries
- Visualisation
- Benchmarking
- All Trade Dimensions
- Data - Since 2010
- Online
- Trends and Patterns
- Scaled Usership
- Ease of Use
- Downloads
- Recency of Data
- POPIA Compliant
- No Implementation

Benchmark Your Performance with Overlays

It's not enough to think you buy better than your competitors. You need to be sure, and if you're not, you need to see what can be done about this. Adding overlays to your subscription allows you to benchmark your procurement or exports against the market—no guessing required.

With your permission, SARS will provide us with your data each month, allowing you to see exactly how your imports and exports compare to everyone else. We have worked with clients to reduce their procurement costs, and the start of everything was this very benchmarking tool.

White Labeling

Provide us with your corporate identity, and we will brand Stratalyze in your colours. If you prefer to host it on your own domain, this too can be done.

We have industry-specific solutions

So, whether you are a clearing and forwarding agent, a bank, or a credit insurer, we have solutions that will enable you and your customers to become world-class trade champions.
